1. The following is an examiner's statement of reasons for allowance: The claims have been allowed because claim 1 has been reconsidered to recite the matter of claims 2 and 3 where there is a guide arrangement, that when the mail processing device is in a second position, is configured to receive the mail items and guide each mail item to the down stream process without reorientating each item with respect to its top and bottom sides. There is a sensor to sense whether the mail-processing device is in the first or the second positions. Claim 4 recites its previously allowed matter of the reorientation arrangement having a bin to receive a mail item. There is an axle that defines an axis about which the bin is configured to rotate. There is a motor configured to rotate the bin approximately 180 degrees. Claim 14 also recites the previously allowed matter of claim 4.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
